EU AI Act Art. 16	Obligations of providers of high-risk AI systems
EU AI Act Art. 17	Quality management system

SCOPE AND LIMITATIONS

What this report shows. Which articles of EU AI Act are represented in this assessment's approved question pool, via direct question-level tagging or via the dimension-to-article mapping configured by the workspace administrator. It measures *topic coverage in the question set*, not regulatory conformance.

What this report is not:

- Not legal advice or a legal opinion.
- Not a certification that any person, organization, or AI system complies with EU AI Act.
- Not an assessment of the legal accuracy of individual questions.
- Coverage depends entirely on how the workspace administrator has tagged questions and dimensions.

For a compliance determination, consult qualified legal counsel with jurisdiction-specific expertise. CertifyAI provides training-content tooling, not regulatory advice.
